Goodyear asked 40,000 people what they expect from a tyre. They named three things: safety, comfort and performance. That's why the revolutionary Excellence tyre incorporates three technologies into a single tyre. It offers you the safest possible drive, with superb performance in handling, and an exceptional feeling of comfort.

The Excellence Features:

Performance table

road
New compound polymer that 'sticks' to the

Dry Road

Precision handling and even tread wear

Quiet Ride

Minimised noise and vibration levels

Speed

Wet Road

205/60R15 EXCELLENCE 91H

Profile of the Excellence

The Excellence tyre features shoulder stabilisers that help transfer weight during challenging manoeuvres, and progressive spiral overlay for even distribution of pressure on the contact patch gives you precision handling and even tread wear.

Compound of the Excellence

The materials your tyres are made of and what they mean for performance, safety and the environment.

Best-in-wet silica compound

Our new rubber polymer offers the best kind of grip that 'sticks' to the road for high performance in wet as well as in dry conditions. So even when roads are soaked in rain, Goodyear's cutting-edge silica compound keeps your tyres firmly on the road.
